## Meeting with Des Moines County Emergency Management Coordinator

On December 3, 2020 I conducted an annual exercise with the Des Moines County Emergency Management Coordinator, Gina Hardin.

Due to COVID -19 we were unable to meet in person and a virtual meeting was held in its place.

We discussed the news that the plant would convert to gas at the end of 2021 and how we plan to close the ponds. We also discussed that we are currently running a larger Rathbun water line to supply water to the plant. We discussed the decision to construct a new pond for low volume waste water and where this would be located. We went over the timeline for the pond closure and our initial closure plans.
