File No. 25224152.00

Mr. Anthony Peterson
Wisconsin Department of Natural Resources
3911 Fish Hatchery Road
Fitchburg, WI 53711

Subject: Expedited Plan Modification for Plan of Operation
Dry Ash Disposal Facility (WDNR License #3025)
WPL-Columbia Energy Center
Portage, Wisconsin

Dear Mr. Peterson:

On behalf of Wisconsin Power and Light Company (WPL), SCS Engineers (SCS) submits this request for an Expedited Plan Modification to the Plan of Operation (POO) for the Dry Ash Disposal Facility at the Columbia Energy Center for review and approval. The request is submitted in accordance with NR 514.09(1)(a)10 for a modification that poses a low potential risk of adverse impacts on public health or the environment.

The request is to update the surface of the existing access road in portions of Modules 5 and 6 to include 6-inches of asphalt pavement. The pavement is intended to improve safety by allowing winter maintenance and alleviating environmental concerns of tracking out material from landfill equipment. Attached is a drawing that shows the area intended to be paved both inside and outside of the facility limits. The pavement within the landfill limits will be removed and recycled when final cover installation occurs.

WPL is requesting the Department's concurrence to proceed with the paving. If you have questions about this request, please call Brian Clepper at 608-742-0713.

Sincerely,

Phillip Gearing, PE
