Subject: Construction Certification
Contact Water Swale Conversion Liner and Leachate Collection/Removal System
I43 Ash Disposal Facility
Edgewater Generating Station, Sheboygan, Wisconsin

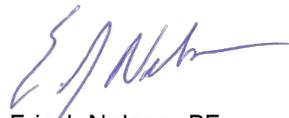

Dear Mr. Maxted:

SCS Engineers (SCS) observed and documented the construction of the composite liner and leachate collection and removal system for the Contact Water Swale Conversion liner (CWS) at the I43 Ash Disposal Facility (I43). Based on our observations and documentation, the composite liner and the leachate collection and removal system was constructed as described in the July 2025 Liner and Leachate Collection System Design Compliance Demonstration for the CWS liner issued by SCS and the construction meets the requirements detailed in 40 CFR 257.70. Pursuant to 40 CFR 257.70(f), our certification of the composite liner and leachate collection and removal system construction for the CWS liner is provided on the following page.

Sincerely,

Phillip Gearing, PE
Project Manager
SCS Engineers

Eric J. Nelson, PE
Project Director
SCS Engineers

P.E. CERTIFICATION

	<p>I, Phillip E. Gearing, hereby certify that the liner and leachate collection and removal system for the CWS liner at the I43 Ash Disposal facility has been constructed in accordance with the requirements in 40 CFR 257.70. This certification is based on my personal observations during CWS liner construction and my review/discussion of field observation and reports prepared by SCS Engineers personnel during construction, record survey data, and the results of material testing. I am a duly licensed Professional Engineer under the laws of the State of Wisconsin.</p> <p><i>Phillip E. Gearing</i> 01/27/2026</p>
