Re: Notification of Groundwater Protection Standard Exceedance pursuant to 40 CFR 257.95

A constituent in Appendix IV to part 40 CFR 257 was detected at a statistically significant level above the groundwater protection standard (GPS) established under 40 CFR 257.95(h) in a monitoring well located at the WPL Edgewater Generating Station. The constituents exceeding the GPS are molybdenum and lithium, as sampled in monitoring well MW-304. This notification has been prepared in accordance with 40 CFR 257.95(g) and 257.105(h)(8).

This notification is provided for the Closure Area comprised of the following former CCR units at this facility:

CCR units

EDG Slag Pond EDG North A Pond EDG South A Pond EDG B Pond
