Re: Notification of Groundwater Protection Standard Exceedance pursuant to 40 CFR 257.95

A constituent in Appendix IV to part 40 CFR 257 was detected at a statistically significant level above the groundwater protection standard (GPS) established under 40 CFR 257.95(h) in a monitoring well located at the Lansing Generating Station. The constituent exceeding the GPS is arsenic, as sampled in monitoring well MW-302. This notification has been prepared in accordance with 40 CFR 257.95(g) and 257.105(h)(8).

This notification applies to the following CCR units at this facility:

CCR units

LAN Landfill

LAN Upper Ash Pond

Signed,

A handwritten signature in blue ink, appearing to read 'Jeff Maxted', written over a light blue circular stamp.
