

**Notification of Intent to Close
Coal Combustion Residuals Surface Impoundment
Ottumwa Generating Station – Zero Liquid Discharge Pond
Interstate Power and Light Company**

In compliance with 40 CFR 257.102(g), Interstate Power and Light Company (IPL) has prepared this notification of intent to close the Zero Liquid Discharge Pond, an inactive CCR Surface Impoundment, at the Ottumwa Generating Station in Ottumwa, Iowa. The unit is no longer receiving CCR or non-CCR wastewater and IPL does not intend to remove CCR material from this unit for beneficial use.

IPL intends to close the CCR Surface Impoundment through removal of the CCR material. There is no liner in the CCR Surface Impoundment. The closure will be completed in accordance with §257.102 of the CCR Rule, the written CCR Closure Plan, and approvals issued by the Iowa Department of Natural Resources. Upon placement of this notice in the facility Operating Record, IPL will commence closure by taking steps necessary to implement the written CCR Closure Plan.

Signed,
