Re: Notification of Completion of Closure pursuant to 40 CFR 257.102(d)

Closure of the Coal Combustion Residuals (CCR) units at the Sutherland Generating Station was completed on June 10, 2020. Closure was completed by consolidating the CCR into a Closure Area within the original CCR units and installing a final cover system, in accordance with 40 CFR 257.102(d). This notification and the attached written certification from a qualified professional engineer have been prepared in accordance with 40 CFR 257.102(h) and 257.105(i)(8).

This notification applies to the following CCR unit at this facility:

CCR Surface Impoundments

SGS North Primary Pond

SGS South Primary Pond

SGS Main Pond

SGS Polishing Pond

Subject: Certification of Closure – CCR Impoundments
Sutherland Generating Station, Marshalltown, IA

Dear Ms. Greene:

The closure of the CCR Impoundments has been conducted as part of the decommissioning of the Sutherland Generating Station. As of the date of this letter, the closure of the impoundments has been completed to satisfy the requirements in 40 CFR 257.102, and the closure has been completed in accordance with the performance standards in 40 CFR 257.102(d). A final cover system that meets the requirements of 40 CFR 257.102(d)(3)(i) and (ii) has been installed.
